This workshop is designed to give library staff a solid foundation in the basics of linked data, as well as its potential and relevance in libraries. By the end of the session, participants should be able to describe the basic building blocks of linked data and explain its relevance to their colleagues.

Presented by the Cataloguing and Technical Services Section of the ABQLA, the event will be immediately followed by the section AGM.

This event will be held in English and will adhere to the ABQLA Code of Conduct.
